

## ARMOUR WILL BUILD PACKING PLANT HERE

Plans and Specifications for New  
Building Are Now Complete,  
Says Local Manager.

### BUILDING BEGINS JUNE 1

Refrigeration System Will Be  
Equipped With Most Modern  
Appliances.

Tulsa is to be the site of a new and ultra modern packing plant, by the Armour Packing company, according to H. N. McKay, local manager of that firm. Plans and specifications for the plant are already in the building inspector's hands, and construction will be begun by June 1, he said.

The new plant will be of reinforced steel and concrete, 150x120 feet, and with three stories complete in every detail to take care of the meats supplied them by the ranches over the state, and also to supply the local demand for their products.

Interior walls will be faced with white enameled brick and white tile, while all the floors are to be of hardwood. There is to be cork insulation throughout the building, while a special concrete sidewalk and curbing is to be built along the Detroit avenue side of the structure, and concrete driveways will be built that cars may enter the building.

While Armour & Co. have about 450 branch plants, besides their main plant in Chicago, Tulsa's plant will be the headquarters for the state. That company now has a branch plant at Muskogee and one at McAlester. Tulsa's plant, heretofore, has been housed in the Tulsa cold storage plant, but has outgrown its present quarters.

### CAPT. HARRY G. GWINNUP ARRIVES FROM OVERSEAS

Capt. Harry G. Gwinup, Tulsa lawyer, arrived at New York on Tuesday after having served more than a year in the field artillery in France.

Captain Gwinup came home with the 25th division and is now at Camp Dix, N. J., where he expects to be discharged at an early date. His home is at 1203 South Denver avenue.

For three consecutive years Gwinup won the golf championship of the state of Oklahoma.

### FURGERSON CHOSEN HEAD OF U. S. COMMERCE BODY

WASHINGTON, May 14.—Hon. L. Fergusson of Newport News, Va., president and general manager of the Newport News shipbuilding and drydock company, has been elected president of the chamber of commerce of the United States. This announcement was made today at the offices of the chamber here as the result of a mail vote of the organization's board of directors.

Mr. Fergusson succeeds as president Harry A. Wheeler of Chicago, who declined re-election after serving two terms. Mr. Fergusson was nominated immediately after the chamber concluded its annual meeting at St. Louis this month, and was unopposed.

Other officers elected include Thomas F. Gault, bishop of Tennessee, vice president of the south central district, and M. J. Saunders, New Orleans, member of the executive committee.

**What Is "Spring Fever?"**  
It is simply low vitality, a lack of energy caused by impurities in the blood. GROVES TASTELESS CHERRY TONIC restores vitality and energy by purifying and enriching the blood. You can feel its strengthening, invigorating effect. Price 60c.—Adv.

## Every Person in Tulsa Who Handles Food for Public Must Have Blood Test Taken

"Tell all the people of Tulsa who handle foodstuffs, all waiters, cooks, butchers, dairymen, bakers—of both sexes—everyone who handles foodstuffs, that they might as well come on up for examination; they have it to do, and we don't want to have to go after them," said both Dr. C. L. Reeder, county physician, and Dr. J. W. Gilbert, city physician, who are in charge, with J. W. Young, head of the government secret service vice campaign workers of the free clinic recently opened at 215 Federal building.

Completing the examination and first treatment of nearly 200 men and women, only a small percentage of whom were found to be absolutely free from disease, the physicians said, "at least 25 healthy boys and almost as many young girls have come to us voluntarily for blood tests. They knew that they had not been exposed to the disease in the usual way, but were afraid that germs might be in their systems, innocently obtained through some unknown medium."

There is no disgrace in catching a social disease, the disgrace and shame lies in not trying to cure it.

### Free Ice and Fan Service For Poor Sick This Summer

The Public Service company, in order to lighten so far as possible the sufferings of the sick during the summer months, will upon application from a doctor, undertake to supply ice and fan service.

This service will be free of charge and will be supplied to any patients located on the regular ice wagon routes or adjacent to the electric lines, who have not the necessary financial means to obtain such service themselves.

### TRUCKS FRIDAY FOR WEST TULSA CLEANUP

City Health Department Furnishes  
Scavenger Service to Keep In-  
dustrial Section Clean.

Health department trucks will be provided residents of West Tulsa Friday morning. The cans and rubbish of all kinds will be carted to incinerating plants without cost. Health department officials said last night that it would be necessary to have the rubbish piled in the streets early Friday morning. "If the West Tulsans fail to take advantage of this free service they will have to pay in police court for their neglect," said a health officer last night.

### ARMY CORPS STUDENTS MAY JOIN MARINES NOW

A telegram received last night from Washington gives the local marine recruiting office authority to enlist for overseas duty members of the students army training corps. Many Tulsa boys have sought to enlist in the marine corps recently, but being members of the student corps organization could not be accepted. The enlistment period is for not more than six months' service overseas.

**Addition to Norman Office.**  
Special to The World.  
NORMAN, Okla., May 14.—The Norman postoffice has outgrown its present quarters and an addition 25 by 40 feet will be added at once to the building. This will make the

and in giving it to others, said Dr. Gilbert. One physician cited some of his own cases, a baby 18 months old, a child of 2 and one of 3, all badly infected with gonorrhea. Examination of the mother and father did not disclose the source of the disease, until it was found that a negro servant in that home was badly infected.

High and grade school students are often found to be infected with one or both of the diseases to an appalling extent. Pencil tows, drinking cups and similar common carriers of the disease are found to be to blame, while kissing is another very usual means of transmitting the disease.

During the war the government spent \$500,000 daily making young men of the nation fit for army service. The plan of treatment worked out successfully on more than a million men by the army surgeons in the one now being used by local physicians at the clinic, under the supervision of the government. The treatments necessary are \$25 a shot. Those who are found to be infected and unable to pay are treated free.

building 25 by 140 feet, totaling 3,500 feet of floor space.

## FOR BILIOUSNESS AND HEADACHE TAKE A CALOTAB

The New Nauseless Colomel  
That Is Entirely Purified  
of All of the Nauseating  
and Salivating Effects.

Do you ever have a bad taste in your mouth in the morning, heavy breath, coated tongue, headache, indigestion, nervousness, with a let-down feeling? You need Calotabs, the nausealess colomel that is delightful to take and delightful in effect. It is calomel with all of its benefits retained and its unpleasant qualities removed. One tablet at bedtime with a swallow of water, that's all. No taste, no griping, no salts, nor nausea. You wake up in the morning feeling like a two-year-old, bright, cheerful, energetic and with a hearty appetite for breakfast. Eat what you please—no danger of exhalation. Calotabs are so entirely delightful to take and so pleasant in effect that your druggist offers to refund the price as a guarantee that you will be delighted with Calotabs. For your protection Calotabs are sold only in original sealed packages, price thirty-five cents. At drug stores everywhere.—Adv.

## SCHOOL EXHIBIT IS SEEN BY HUNDREDS

Sewing and Manual Training De-  
partments Draw Large Crowds  
After Children's Program.

A large crowd of fond relatives and friends were visitors at the exhibit of the handicraft of the school children held in Convention hall last night.

The exhibit of the sewing department, in which were shown a number of dresses made by the scholars, was by far the most popular booth. This fact is accounted for by the large number of women present.

Different articles of household necessities manufactured in the manual training department came in for their share of the praise. Each and every exhibit was mute testimony of the zeal of the teachers and the industry of the children. All the grades and departments were equally represented.

The musical department arranged a very attractive program that was well carried out by the children.

## MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts  
if Back hurts or Blad-  
der Bothers.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from overwork; they get sluggish; the eliminative tissues log and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night, when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice combined with lithia, and has been used for generations to flush and stimulate clogged kidneys to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.

## Service Clothes for Business

The young man of today  
is freshened in spirit and  
doubly ready for the great  
adventure of living.

reflecting the vigor of the  
present-day man who looks  
the world fairly in the face.

### Clothes With a Message

He knows  
how much  
his ability  
is measur-

ed by his regard for appear-  
ance. He shows his fellow  
workers that he is up to  
the minute in thought and  
action—that he is ready for  
bigger and better things.

Your Kup-  
penheimer *The Styles*  
dealer has *You Want*  
the style  
you are looking for.

Designs that interpret  
the times; fabrics that are  
individual; and with the  
same standard of sound  
value — that never varies  
season in, season out.

The House of Kuppen-  
heimer has prepared for  
the young men renewed by  
the events of war a virile,  
buoyant style of clothes;

It's not what clothes  
cost, but the service they  
give that counts. Good  
clothes are the only real  
economy.
